

**Additives**

Product Type	Trade Name	Principal
Colloidal silica	Levasil®	AkzoNobel
Foam control agents	Dispelair®	Blackburn Chemicals
Poly-naphthalene sulfonate polymers (NSF)	Flube®	Bozzetto Group
Poly-carboxylic poly-ether polymers (PCE)	Supla®	Bozzetto Group
Moisture scavengers, paste	Drying Additive Paste	Castor International
Moisture scavengers, powder	Drying Additive Powder	Castor International
Rheological modifiers	Castor Thickener	Castor International
Catalysts	Addocat®	Lanxess
Cross linking agents	Addolink®	Lanxess
PU additives	Phenoxypropanol	Lanxess
Dispersing agents	Lucramul®	Levaco
Surfactants	Lucramul®	Levaco
Hydroxyethyl cellulose	Tylose® H	SE Tylose
Methyl cellulose	Tylose® M	SE Tylose
Starch ether	Tylovis®	SE Tylose
Surfactants	Hostapur®	SE Tylose

**Extenders & Functional Fillers – Calcium Carbonate**

Product Type	Trade Name	Principal
Controlled moisture, surface treated	ImerSeal®	Imerys Minerals
Dolomite - coarse particle size	D110/ D200	Imerys Minerals
Dolomite - medium particle size	DRB	Imerys Minerals
Dolomite - ultrafine particle size	Calcidol®	Imerys Minerals
Fine particle size	PolCarb®	Imerys Minerals
Marble based, fine particle size	ImerCarb®	Imerys Minerals
Marble based, medium particle size	ImerCarb®	Imerys Minerals
Medium particle size	PolCarb®	Imerys Minerals
Surface treated	ImerCarb®/ Polcarb®	Imerys Minerals
Ultrafine particle size	Polcarb®/ ImExtend®	Imerys Minerals

**Extenders & Functional Fillers – Kaolin**

Product Type	Trade Name	Principal
Ball Clay - fine particle size	Hexafil™	Imerys Minerals
Calcined, fine particle size	Polestar™	Imerys Minerals
Calcined, fine particle size, silane treated	Polarite™	Imerys Minerals
Calcined, flash, medium particle size	Opacilite™	Imerys Minerals
Calcined, medium particle size	Polestar™	Imerys Minerals
Calcined, medium particle size, fused silica mineral	Molochite™	Imerys Minerals
Calcined, medium particle size, silane treated	Polarite™	Imerys Minerals
Calcined, ultrafine particle size	InFilm™	Imerys Minerals
Highly refined fine particle size	Supreme™/ Speswhite™	Imerys Minerals
Mechanically pre dispersed, fine particle size	Polisperse™ 20	Imerys Minerals
Mechanically pre dispersed, medium particle size	Polisperse™ 50	Imerys Minerals
Mechanically pre dispersed, ultrafine particle size	Polisperse™ 10	Imerys Minerals
Medium particle size	Polwhite™	Imerys Minerals
Medium particle size, chemically pre dispersed	Devolite™	Imerys Minerals
Medium particle size, specially pre dispersed	Stockalite™	Imerys Minerals
Metakaolin with pozzolanic activity	Argical™	Imerys Minerals
Metakaolin with pozzolanic activity	Metastar™	Imerys Minerals
Metakaolin with pozzolanic activity	Polestar™ 450	Imerys Minerals
Natural, refined contains a dispersing agent	Light Kaolin BP	Imerys Minerals
Premium grade designed for its' barrier properties	Barrisurf™	Imerys Minerals

## Extenders & Functional Fillers – DE & Perlite

Product Type	Trade Name	Principal
Diatomite - calcined	Celite®	Imerys Minerals
Diatomite - flux calcined	Celite®	Imerys Minerals
Diatomite - natural	Celite®	Imerys Minerals
Diatomite - natural	Diafil®	Imerys Minerals
Diatomite - natural	EcoFlat™	Imerys Minerals
Perlite - expanded, milled	Europel®/ Harborlite®	Imerys Minerals
Perlite - expanded, unmilled	Europel®/ Harborlite®	Imerys Minerals

## Extenders & Functional Fillers – Mica

Product Type	Trade Name	Principal
Delaminated flakes	M 840	Imerys Minerals
Dry ground flakes	M 814	Imerys Minerals
Fine dry ground	M 85F	Imerys Minerals
Fine ground	MU 101	Imerys Minerals
Fine particle size	WG 133	Imerys Minerals
Flakes, glitter effect	MU 450	Imerys Minerals
Ground flakes	MU 247/ MU 280/ MU 841	Imerys Minerals
Light, delaminated flakes	M 830	Imerys Minerals
Non-delaminated flakes	MU 454	Imerys Minerals
White, micronised	MKT/ MU M2/1	Imerys Minerals

**Pigments**

Product Type	Trade Name	Principal
Chrome Oxide Green - micronised	Colortherm®	Lanxess Inorganics Pigments Group
Chrome Oxide Green - powder	Colortherm®	Lanxess Inorganics Pigments Group
Iron Oxide Black - micronised	Bayferrox®	Lanxess Inorganics Pigments Group
Iron Oxide Black - powder	Bayferrox®	Lanxess Inorganics Pigments Group
Iron Oxide Brown - micronised	Bayferrox®	Lanxess Inorganics Pigments Group
Iron Oxide Brown - powder	Bayferrox®	Lanxess Inorganics Pigments Group
Iron Oxide Red - micronised	Bayferrox®	Lanxess Inorganics Pigments Group
Iron Oxide Red - powder	Bayferrox®	Lanxess Inorganics Pigments Group
Iron Oxide Yellow - micronised	Bayferrox®	Lanxess Inorganics Pigments Group
Iron Oxide Yellow - powder	Bayferrox®	Lanxess Inorganics Pigments Group

## Resins, Binders & Polymers – Covestro

Product Type	Trade Name	Principal
Aliphatic polycarbonate urethane dispersions	Bayhydrol® UH	Covestro AG
Aliphatic polyester urethane dispersions	Bayhydrol® UH	Covestro AG
Aliphatic polyisocyanate based on HDI	Desmodur® N	Covestro AG
Aliphatic-aromatic polyisocyanate	Desmodur® HL	Covestro AG
Aromatic polyisocyanate based on MDI	Desmodur® V	Covestro AG
Aromatic polyisocyanate based on TDI	Desmodur® L	Covestro AG
Aromatic polyurethane prepolymers	Desmodur® E	Covestro AG
Aromatic, self-crosslinking urethane resin	Desmotherm®	Covestro AG
Chlorinated polymer	Pergut®	Covestro AG
Non-solvent resin, lightfast flexibilizer/plasticizer	Desavin®	Covestro AG
Non-functional polyurethane resins, physically-drying	Desmolac®	Covestro AG
OH-functional polyester & polycarbonate polyurethane dispersions	Bayhydrol® U	Covestro AG
Polyacrylic polyol dispersions for 2 component systems	Bayhydrol® A	Covestro AG
Polyaspartic polyols	Desmophen®	Covestro AG
Polycarbonate polyols	Desmophen®	Covestro AG
Polyester polyols	Desmophen®	Covestro AG
Polyether polyols	Acclaim®	Covestro AG
Polyether polyols	Desmophen®	Covestro AG
Polyisocyanate cross linkers for powder coatings	Crelan®	Covestro AG
Polyisocyanate cross linkers for waterborne polyurethanes	Bayhdur®	Covestro AG
Polyurethane dispersions	Baybond®	Covestro AG
Polyurethane prepolymers based on HDI	Desmodur® E	Covestro AG
Polyurethane prepolymers based on MDI	Desmodur® E	Covestro AG
Polyurethane prepolymers based on TDI	Desmodur® E	Covestro AG
Self-crosslinking urethane resins	Bayhytherm®	Covestro AG
Urethane prepolymers for flexibilising epoxies	Desmocap®	Covestro AG
UV-curable urethane acrylate dispersions	Bayhydrol® UV	Covestro AG

## Resins, Binders & Polymers – Castor International

Product Type	Trade Name	Principal
Castor oil	Castor Oil FSG	Castor International
Dehydrated castor oil	Castor Oil DHC	Castor International
Hydrophobic polyol	Castor Polyol D	Castor International
